Find by NemoAI at a glance

Seed stage · Investors welcome

One connected European software ecosystem instead of isolated tools: free apps for consumers and, with **NemoNexus**, modular business software that keeps data in-house.

THE PROBLEM – COMPANIES IN GERMANY

85 % consider Germany too dependent on US providers

91 % would rather use a German provider

43 % find no equivalent European alternative

WHAT MAKES IT DIFFERENT

- Data stays in-house – no cloud lock-in, no US servers
- Own search index, no algorithms that analyse user data
- Fully modular, adaptable to any company
- Same look and feel on every device, in 36 languages

THE PRODUCTS

NemoConnect	Calls and data exchange across all platforms – the heart of the ecosystem	App Store · APK
NemoWorld	Browser with its own search	Mac · Windows
Nemo	Mobile browser with its own search	iOS · Android
NemoChat	Private chat without tracking	App Store · APK
NemoNexus	Modular business software on a monthly subscription, also available as white label	Coming soon · Pilot customers wanted

BUSINESS MODEL

- Monthly subscription for NemoNexus modules
- Licences for IT resellers (sold under their own brand)
- Add-on apps for companies
- Consumer apps stay free

MARKET

- Entry: around 271,000 medical practices, law firms and insurance businesses in Germany
- Next: 26.1 million small and medium-sized enterprises in the EU
- First inquiries from India, the Middle East and the Far East

STATUS TODAY

- All products built without outside capital
- Four apps are publicly available
- NemoNexus fully developed, market launch in preparation
- A sales partner and an IT reseller have expressed interest

FOR INVESTORS

Find by NemoAI is looking for investors and partners for its next stage – to fund sales, marketing and an independent security and data-protection audit. Pitch deck and figures available on request.
